

AN INTERVIEW

For this activity you will need to design some interview questions to ask your friends at school about their experience of Lockdown (it could be about this most recent lockdown or the original lockdown a year ago).

You will need:

- A minimum of 10 questions
- A mixture of questions about positives and negatives
- Questions that are open (this means the answer can't just be yes or no)

Once you have written your interview questions you will need to choose some people to interview. At least two different people. You can either write down their answers or you can video or voice record the interview.
