

# Through the eyes of a Pet

Write a diary as though you are a pet - whatever pet you like.

What was lockdown like for a pet. Think about it.

How did the lives of your pets change?

Did they have more walks?

Did you as the owners have more time to spend with them?

Did they get more attention? Was this good or bad?

Did they miss having quiet time alone?

Try to imagine the personality of your pets and include that within your diary.

You may have more than one type of pet. Could you do a contrast diary between the lockdown life of a dog and a cat perhaps? Have a look on the internet for examples of these (they will make you laugh).
